LOUISVII LX .- The Courier of yesterday says:

LOUISVILLE.—The Courier of yesterday says:

The river was rising slowly yesterday, barely five inches during the day, and we expect it will be falling to-day. It has riven very much since it commenced, making over thirteen feet water on the Falls for steamboats has evening, and thirty nine feet water in the channel at the root of the Falls. The weather has again been of a wintry hue, and no doubt there was a heavy freet isst night, with a brisk snow-storm in the morning, accompanied with a little rain and sleet.

Sweet Away.—The flatboat of coal belonging to the following a Co., which had stranded on the rocks, some days since, above Corn Island, was sweet away by the size of waters yesterday, and dashed to pieces. The greater portion of the coal had been removed.

The Froon.—The New Orleans papers of Wednesday learn that Marengo and Rifle Point levees have been threatened, and slight breaks have occurred. The telegraph reported a break in the levee at Wood's Place, on the Mississippi side, opposite Point Pleasant, on Saturday, another on the Louisians side in the levee opposite Warrenton, at Bedford's place, broke throngh. The river at Vicksburg was falling from the effect of the large quantity of water which is furning through these creases. At Yazoo City, we man the Yazoo River is booming full, and indicates an overriow. The water is rising at the rate of about two flohes in twenty-four hours, which, at the present stage of the water, is unusually rapid. It is now within twelve inches of the highest point of last your, at Yazoo City. The only point from which we have of low water is Upper Red i ver.

Passylle.—At Nashville, on Saturday, the river was failing, with twelve feet on Harpoth Shoals.
